Warriors!!!

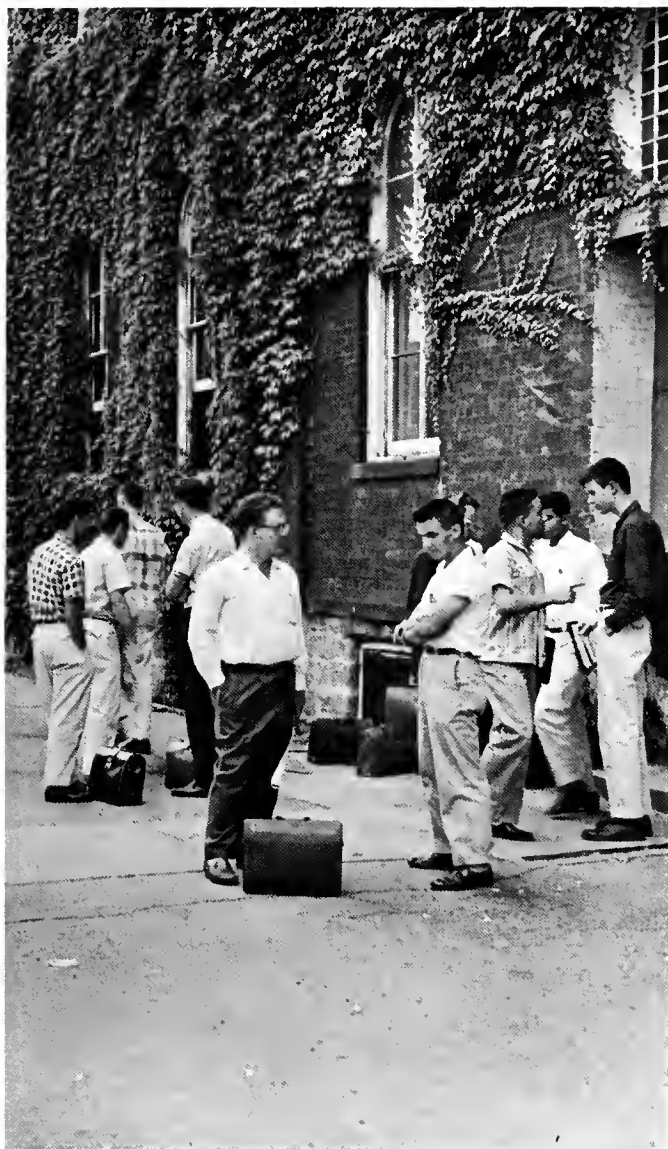

After the graduate has left the campus with his diploma in his hand, his mind will often return to the scenes of the past and his former life as a student. These scenes, like the images of a kaleidoscope, some vivid, some vague, will show remembered pictures of campus life similar to the scenes on these pages.

President Keene

The dignity of man is not a thing that comes to one, or a group, or a nation through grandstand plays, braggadocio, blatant do-goodism, verbose generosity, or self-dramatized unselfishness.

The dignity of man is achieved by the simple process of doing the things your heart dictates, of taking seriously the responsibilities of family, business and the social structure in which we live.

The dignity of man is achieved by unobtrusively recognizing that your fellow man has his rights and that it is only natural for you to respect them.

The dignity of man is self-apparent when charity is given so quietly as never to call attention to oneself, nor cause embarrassment to the recipient.

A man may make mistakes, but he isn't a failure until he starts blaming someone else.

Engineering

Aeronautical Engineering has made momentous strides in the 56 years since the first flight of heavier-than-air machines. Since the Wright Brothers first airplane to today's supersonic fighters, the aircraft industry has seen many changes. Today's aircraft designers and builders work as a team. Individual engineers concentrate their efforts on small phases of the overall project, resulting in a complicated but efficient design. More and more scientific knowledge is necessary to keep pace with today's advanced aircraft. The importance of basic knowledge in the fields of mathematics, physics, and mechanics is becoming more apparent. The Aeronautical Engineering Department at Indiana Technical College strives to have the student well prepared in the basic sciences before the advanced aeronautical topics are undertaken. A graduate with a B.S. degree in Aeronautical Engineering may enter many phases of the aeronautical field. The ever increasing advances in the field of aeronautics, such as the earth satellite project, will continue to offer a challenge to the engineer of the present and future.

PROFESSOR BENJAMIN L. DOW
Head, Aeronautical Engineering Department

DR. TOD B. DIXON
Head, Chemical Engineering

One of the newest branches of engineering, Chemical Engineering, has advanced rapidly. Practically all industry in some stage of processing, development, or manufacturing, must depend upon men with a knowledge of chemistry. Today there are highly specialized and diversified fields such as Gas, Metallurgical, Ceramics, and Petroleum. Because of its being the basic technology underlying the development and operation of virtually all industry, Chemical Engineering will realize even greater growth in the years to come.

Chemical Engineering

JOSEPH W. CRANMER
Assistant Professor

JOHN COCHRAN
Assistant Professor

The development in the various branches of engineering has created new problems in the design and construction of buildings, highways, airports, and other structures. The Civil Engineer is meeting the demands of our present age with new methods and ideas. Even though Civil Engineering is the oldest of the fields of engineering, it continues to grow and develop and provide opportunities for men of vision.

PROFESSOR RICHARD D. DERMER
Head, Electrical Engineering Department

The increasing utilization of electrical power in this country makes immense demands on the Professional Electrical Engineer. He must know how to select, design, work out economics and production. He is the mastermind in the field of controls, as evidence by today's automation. The skill and creative ability of the Electrical Engineer transforms theoretical knowledge into practical service to meet the challenges of the future.

Electrical Engineering

MAURICE A. SIMMONS
Assistant Professor

JOHN WHITNEY
Assistant Professor

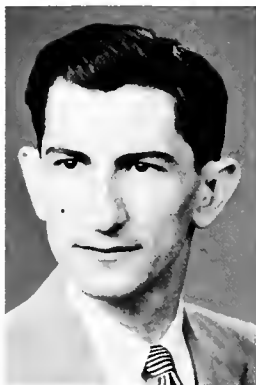

RALPH CLARK
Instructor

Electronic Engineering is a highly specialized branch of Electrical Engineering. The importance of electronics is recognized as a field of engineering in its own right. To the Electronic Engineer is attributed outstanding development in such realms as guided missiles, radar, color television, electronic computer, radio communication, and atomic energy. The Electronic Engineering curriculum is planned to specialize a fundamental knowledge of electrical engineering to scientific application in the field of electronics.

PROFESSOR RALPH S. CARSON
Head, Electronic Engineering Department

DR. IVAN A. PLANCK
Head, Mechanical Department

The field of Mechanical Engineering is so broad that no man can be an authority on all of its branches. Consequently, Mechanical Engineers tend to become specialists in chosen branches. Therefore, the student is given a thorough background in the basic sciences. This field is very extensive, for practically every manufactured article requires the services of mechanical engineers both in the design of the machine on which it is made and in the production of the article on those machines in the factory.

Engineering Drawing is a descriptive graphical language used by engineers and designers throughout the world to express, develop, and record their ideas and information. Men of industry have indicated that Engineering Drawing is not only important, but absolutely necessary. Students need a thorough grounding in the fundamentals of science and communication, and should be trained early in the engineering approach for the solution of problems. They must have training in space visualization; they must develop their powers of analysis and synthesis; they must be given experience in creative thinking at the start of their college work; and their abilities to develop and record ideas must be constantly challenged.

Arts and Science

Chemistry is one of the fundamental sciences, important both in that it underlies all phases of modern living and in its own right as a field of employment for the several hundred thousand American chemists. Its scope includes everything from process control and analysis to the "glamor" fields of nuclear science and radioactive tracer technique, biochemical research, and organic synthesis of vital drugs, plastics and explosives.

In our complex society, scientific progress depends on the mathematician, the engineer, and many other scientists whose primary tool is mathematics. The Department of Mathematics offers a well rounded course for the young mathematicians, as well as the essential mathematics for the engineering, physics, and chemistry students.

If, as has been said, "this is the atomic age," then this is the age of physics. Nuclear weapons and machines are products of the physics laboratory. Each new day finds the physicists of our nation ever widening horizons of man's knowledge. Therefore, Indiana Technical College meets the need for training in physics by offering basic and advanced courses designed to prepare a student either for direct participation in industry, or for a scientific career of the more traditional type.

Here at college we have learned much of the art of working together on a big project. Memories may fade, but our accomplishment will endure. We, the staff of the 1960 KEKIONGAN, humbly submit this book. It is in part a record of the hours we spent in learning all about our campus, in part an endeavor

to be of service to our college. But especially it is an attempt, though words and photos, to present an attractive and authentic picture of the school year and its activities.

This staff is especially grateful to Mr. Darrow Fox for the time he has so generously given.

The Technician Staff

We of the staff like to feel that we have done a good job in representing the students here at Tech. It has been the object of the paper to arouse student interest where interest was lacking, to promote the school spirit and to bring the student closer to the problem he will face in his profession upon graduation. Above all other things, the interests of Indiana Technical College both locally, nationally and worldwide were kept uppermost in mind because we believe in Tech and have faith in the principles upon which it was founded. Criticisms, where criticism was warranted, was intended to make Tech a better college—one which we can be proud of.

Tech Wives' booth at the Science Fair and Carnival

The Tech Student Wives' Club is designed to promote acquaintances, and provide social activities for wives of Tech students. Highlighting the year are the semi-annual banquets, at which wives of graduating seniors are presented with "Wives' Diplomas," or "PHT" (Putting Hubby Through) Degrees.

Glee Club

The first Indiana Tech Glee Club was formed during the fall of 1958. Since that time some 35 to 40 men have taken the time to rehearse diligently each term to produce a singing organization of which Tech can be proud.

Radio and TV programs, appearances at Tech convocations and other college programs, including baccalaureate and commencement twice a year, plus performances at high schools in the Tri-State area are only a small part of the Glee Club's activities. A banquet sponsored by the Engineering Societies of Fort Wayne opening National Engineers Week, two programs for the Fort Wayne Fine Arts Festival, and several trips on the road, including an appearance at the Toledo Museum of Art, Ohio, where the above picture was taken, have also been achieved.

William S. Hazard, instructor in the Aero Department, trains and is the conductor for the Glee Club. Mr. Lee Melugin has served as President, and the accompanists have been Barbara Modricker and Sally Elliott.

Sukkariyyah, Glen Garrelts, Tony Bettinelli, L. Rash, W. H. Sader, R. F. Deckham, W. A. Chambers, A. L. McDonald, A. W. Gillman, R. Knapp.

The Association of Civil Engineers of Indiana Technical College is an organization of students and faculty from the Civil Engineering Department.

The club has one field trip each term, a mid-term party, a banquet in honor of all the seniors of the club, and an award given to the outstanding graduating senior each term.

Audio Engineering Society

First Row, left to right: Stephen S. Sanford, Treasurer; John F. Scott, Chairman; David Babcock, Secretary. Second Row: W. F. Botts, W. H. Rushton, L. L. Fleck, R. Wiseman, L. T. Dreiband. Third Row: J. L. Hernandez, J. F. Moore, J. M. Rockwell, Co-chairman; J. A. Betram, W. Strandberg.

The Student Section of the Audio Engineering Society enables Tech students interested in Audio Engineering, either as a career or as a hobby, to exchange ideas, and to learn of new developments in the field.

Members of the Student Section hold the grade of Student Member in the Audio Engineering Society, and as such, receive full benefit of membership in that organization.

Chemical Engineering Society

First Row, left to right: John R. Cochran, Faculty Advisor; Wahling Ng; Ramesh L. Mehta, Ron V. Trahan, Ahmed S. Abdul-Rahman, Charles T. Dils, Joseph Cranmer, Faculty Advisor. Second Row: I. D. The purpose of the Electronic Engineering Society is to advance and stimulate interest in electronic engineering and its allied fields.

The Society provides electronic engineering students with an opportunity to hear qualified speakers from industry, and to tour plants of companies engaged in the design and production of electronic equipment.

Institute of Aeronautical Science

The Institute of Aeronautical Sciences is the representative society for engineers, designers, and technical specialists in all the sciences related to the design and development of airborne craft. Student membership provides the student engineer or scientist with broad opportunities to engage in activities associated with their future careers in aviation.

First Row, left to right: David L. Vidito, Vice Chairman; John F. De-George, Secretary; Jerome Widmer, Treasurer; Herbert C. March, Chairman. Second Row: Mike Warren, Frank B. Vanadia, Larry Lines, James Norris, Herbert C. Legg, Fred L. Hurhan, E. A. Pentheny. Third Row: Wing Eng, Frank Patten, Joseph Walko, Dennis Agler, Charles Lamb, Ronald Hobiske. Fourth Row: William Hazard, Faculty Moderator; L. R. Day, H. A. Smith, R. L. Lancaster, Bob Ashby, C. W. Johnson. Fifth Row: L. Winslow, H. Oda, R. Beckert, Robert Beech, Ken Strong, H. L. Allen.

First Row, left to right: Dennis M. Jensen, James W. Ting, Treasurer; William R. Nusedorfer, Vice Chairman; Lee W. Benedict, Chairman; Richard E. Couture, Secretary; John R. Kennedy. Second Row: Edwin A. Smith, Allyn L. Pontius, John L. O'Donnell, Chuck T. Clevenger, Robert M. Winslow, John S. Leyse, Sylvester J. Aman, Thomas L. Koch, Arnold R. Gahlinger, Harold A. Betka. Third Row: Richard W. Gasdorf, Oswald J. Guada, Melvin W. Evans, Morris J. Ditlinger, Edward R. Wiemann, Robert V. MacDonald, Glenn R. Hudson, Jay R. Kelchner.

Members of the Mechanical Engineering Club are local affiliates of the Fort Wayne Branch of the American Society of Mechanical Engineers, ASME.

The objectives of the club are to advance, promote, and teach new phases of mechanical engineering. Programs include talks by experienced engineers, and field trips to industries in the Tri-State area.

Society of Automotive Engineers

First Row, left to right: Howard Macklin, Faculty Advisor; Rudolph Opderbeck, Ernest Maszarelo, Treasurer; Jan Smith, Ronald Dupuy, President; Ronald Claes, Dimitris Loukidis, Connie Wester, Allan Leonard. **Second Row:** Allyn Pontius, Ronald Cowan, Paul McCrillis, Vytautas Micevicius, Sylvester Aman, Paul Merriman, Peter Schroeder, Richard Weymouth, John Welling, Jan Kerrebyn, Jr., Robert Little, James Lewis, John O'Donnell. **Third Row:** Donald Terry, Fred Copeman, Demetrius Scantzios, James Tennes, Carlton Duncan, Ernest Groome, Oswald Guada, George Till.

The Society of Automotive Engineers is an affiliate of the National Society of Automotive Engineers, and is sponsored by the Mechanical Engineering Department. Membership is open to all engineering students who are interested in the advancement of the automotive industry.

Society of American Military Engineers

Front Row, left to right: Bart Bowers, F. V. Pfafman, Lee Heydrick, Jerry Salter, Rudy Hellmold, D. Loukidis, D. Scantzos. **Second Row:** Glen Garrelts, R. C. Guard, G. H. Horsch, R. W. Powell, G. Scott, G. D. Brewster.

The purpose of the Society of American Military Engineers is to advance knowledge and understanding of the science of military engineering in connection with its service to the United States of America. All full time students are eligible for admission as student members of the national organization.

Kekiongan Amateur Radio Club

First Row, left to right: Mr. Cochran, Faculty Advisor; Darrell Richards, Bill Frisbee, Jesse Durbin. **Second Row:** Al Bjorling, Hank Corson, Tonis Paide, Daryl Waite, Dennis Cowdrick.

The purpose of the Kekionga Amateur Radio Club of Indiana Technical College is to promote amateur radio activities among interested students of the College and to bring together students who have an interest in the practical appreciation in communications. To qualify for membership a person must be a student or faculty member of the College and must have a Federal Communications Commission License ranging from novice to advanced.

Flying Club

The I.T.C. Flying Club, largest and most active student body group, is composed of sixty members. The Club owns two planes, a Cessna 140, and a Cessna 120; both are hangared at Smith Field. Day and night, local and cross-country flights are made at a very slight expense to the members. The Club was formed to make flying possible for the students who own licenses, and qualified instruction possible for the students who wish to obtain a license at reasonable cost. The Club operation is solely supported by members' dues.

Weight Lifting Club

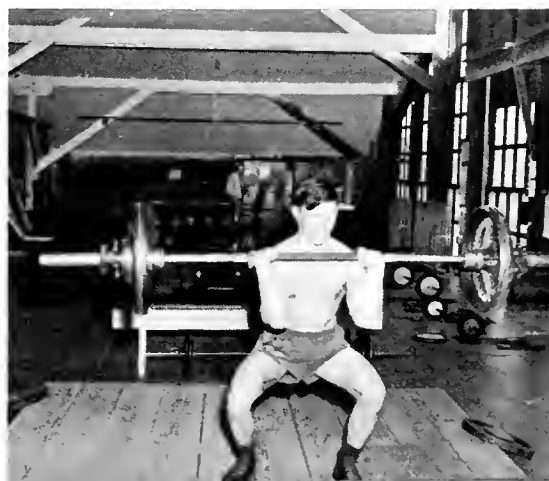

Seated, left to right: Robert Maine, Larry Sterling, Charles Kernick. Standing: Thomas Cassidy, James Dohner, Fern LaRochelle, Stephen Nemeth.

The Indiana Technical College Weight-Lifting and Body-Building Club was formed four years ago. One of the services offered by this organization is that of instructing students in the art of weightlifting and body building.

During the previous year, the Club has had entries in the A.A.U. odd-lift meet at Indianapolis, and the Northern Indiana Olympic life meet at East Chicago. At the A.A.U. meet, first and second places were won by members Robert Maine and Frank Stomel, respectively, in the 132 pound weight class. A fifth place was won by Frank Stomel at the Northern Indiana Olympic meet.

First Row, left to right: Jerry Alger, Father McCormick, Chaplain; Edward P. Guindon, Herbert Carter, Advisor. Second Row: Elston Boutilier, Dick Muir, Winston Wurgler, Henry Corson, Joseph M. Tretter, Herbert Lenzkes, Dennis Cowdrick.

The Canterbury Club is an organization of college students of the Episcopalian faith. The objective of the club is to interpret to member students the meaning and method of full Christian living and to train students in active, intelligent church and community leadership. The Canterbury Club meets at the Trinity Episcopal Church.

Pakistan Students' Association

Left to right: Farid Jadoon, Muhammad Ashraf, Rafiq Ahmad, Salim Akhtar, Muhammad Naim.

On September 15, 1956, the Pakistan Students' Association of America, Fort Wayne Chapter, was organized.

The purpose of the organization is to create better understanding between Americans and Pakistanis through education and cultural activities, and to promote closer contact and cooperation between Pakistani students.

Newman Club

The Newman Club is an organization funded for the purpose of deepening the spiritual and enriching the temporal lives of its members through a balanced program of religious, intellectual, and social activities.

The inspiration of the great Cardinal Newman, long an advisor at Oxford University, is the beacon guiding the clubs, which exist at over 300 colleges and universities in the United States

Iota Tau Kappa

Iota Tau Kappa is an honorary engineering fraternity whose name symbolizes industry (Iota), Thrift (Tau), and Knowledge (Kappa). The chief objective of this organization is to promote and to inculcate high ideas and attitudes of scholarship among the members of the student body of Indiana Technical College.

In order to become a member of Iota Tau Kappa, an engineering student must have a grade-point average of 3.5 or more for four terms, not necessarily consecutive terms. At least sixteen college credit hours shall comprise each of these four terms.

Second Row: Tony Testone, Tom Sodano, Jerry Taylor, Gerald West, Chuck Robson.

Third Row: Al Torrie, Ed Lorah, Pranas Kizis, John Bagliere, Bob Prather, Richard Northey, Tony Behinelly, Dick Fletcher.

Originally organized at Indiana Technical College in January, 1957, as Theta Mu Pi Fraternity, Beta Sigma Tau places special importance on three items: EQUALITY, UNDERSTANDING, and UNITY. As the first national fraternity of its kind, Beta Sigma Tau was founded in 1948 to level, not to raise, barriers among men, to provide the atmosphere for cooperation, and to daily practice the golden rule of brotherhood. A constructive pledge program with no hazing or degradation of any sort as well as special stress being placed on high scholarship as a requisite to a successful fraternity, are an integral part of the program. All members are accepted solely on their own individual worth, regardless of race, color, or creed.

It is the aim of Beta Sigma Tau to contribute to the community by helping to prepare better students and better citizens.

Kappa Alpha Psi, a college fraternity now comprised of more than 200 undergraduate and alumni chapters on major campuses and in cities throughout the country, boasts a membership of over 20,000. It was founded in the school year of 1910-1911 on the campus of Indiana University at Bloomington, Indiana. Its constitution is the law of an organization predicated upon, and dedicated to the principles of achievement through a democratic fraternity.

Preparation of the coat-of-arms was completed during the summer of 1911 by three of the founders who solicited the aid of a professor of Greek Art at the Indiana University together with that of a professor of Greek at Concordia University, Fort Wayne, Indiana.

The second chapter of Kappa Alpha Psi was chartered in 1913.

Kappa Sigma Phi is a social fraternity of college men dedicated to the promotion of Fellowship, Scholarship, and Sportsmanship. The purpose of this fraternity is to bring together, in close bonds, the brothers of this fraternity; to assist one another while in school as well as in the business world. Kappa Sigma Phi fraternity has a standing membership of approximately forty active members each term. As the turnover in membership is usually large because of the number of members graduating each term, several pledges are accepted for initiation into the fraternity each term.

T. Beerman tries for two points

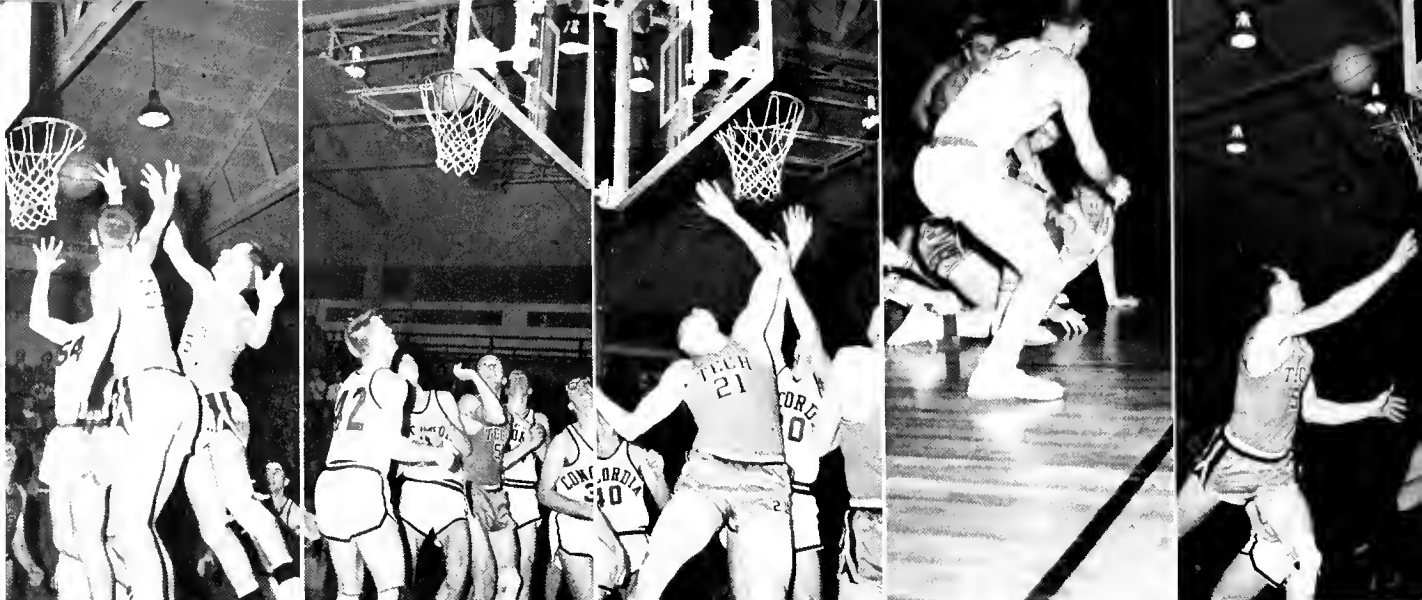

Coach Murray Mendenhall, Jr., after guiding the Warriors thru their fourth successful season, under his direction, announced his decision to retire from the coaching ranks. Coach Mendenhall's knowledge and skill was one of the foremost factors in building Tech's recognition as a powerful contender in the MID-CENTRAL COLLEGIATE conference. He will be greatly missed.

The 1959-60 basketball season saw the Warriors compiling an impressive 18 won- 8 lost record which enabled them to finish second in conference play. By virtue of their outstanding record, the Warriors became the first Tech team to participate in the ROCHESTER INVITATIONAL BASKETBALL TOURNAMENT.

Top Warrior scorers were seniors Kent Johns and Rudy Stegelmann and junior Tom Beerman. Rudy Stegelmann also led the team in offensive and defensive rebounds, running up the impressive total of 408 for the season.

Will it, or won't it?

WARRIORS SWEEP TOURNEY

Adding to their season's laurels, the Techmen romped off with the championship of the second annual Rochester Invitational Basketball Tournament, by beating the defending champion and host, Rochester Institute of Technology, by a score of 84-65. Other victims of the Techmen were the Highlanders of the Newark College of Engineering, 99-58; and a fellow-member of the Mid-Central Collegiate Conference, Tri-State College, 82-65. As quoted from the Indiana Technician, "The Techmen ran off with almost everything but the gym's cornerstone." In addition to the trophy won by the team, Kent Johns, Tom Beerman, and Rudy Stegelmann were voted to the All-Technical College first string. Rudy Stegelmann, because of his outstanding performance and sportsmanship, was voted the outstanding player of the tournament.

With hopes of rebuilding the team for the future, the Warriors, aided by the coaching talents of Murray Mendenhall Jr., embarked on a 15-game schedule, including 10 Mid-Central Conference games, against Concordia, Grace, Huntington, and Tri-State Colleges. With an impressive 7 won- 3 lost record, Tech finished a close second to Huntington in Conference play.

Jack Barker, shortstop, topped the team in hitting by finishing the season with a .429 average. The pitching squad was paced by Dave Lewis with a 3 won, no loss record.

With only a few men lost to graduation, the future looks bright for '61.

The "never say die" spirit of Tech's Track Team, coached by Gilbert Baumgartner, was not quite enough to compensate for the apparent lack of team strength. Winless in all five scheduled meets, Tech came closest to victory in a dual meet with Manchester College. Although Tech won eight of the fifteen events, Manchester defeated the Warriors 70.5 to 60.5 by taking the first three places in the pole vault and by getting a break when Techman John Meshberger stumbled and fell while on the way to victory in 220-yard low hurdles.

Top performer of the season was Ivars Veldra, a blue-ribbon winner eleven times over in the discus,

shotput, and javelin throws. As Tech's singular entry in the Intercollegiate Track and Field meet at Notre Dame, Veldra took fourth place in the shotput, fourth place in the javelin, and third place in the discus throw, giving Tech seventh place against such competition as the Big Three—Indiana University, Notre Dame, and Purdue. Sixteen colleges participated.

Other event winning Warriors during the season were Larry McLaughlin, 440; Havey Baker, mile; Ernie Young, high-jump; Ab Mainwaring, 2-mile; John Meshberger, high hurdles; Kent Johns, mile and 2-mile; and Forrest Williams, broad jump.

Front Row, left to right: Melville Chung, Arthur Puccetti, Rafeek Mohammed, John Rollins, Daniel Sayre. Back Row: Jairo Sandaval, Tom Noll, Charles Brothers, George Osipon, Henry Wall, Bill Warner, Garth McKen, Frank McKenning.

Fencing

As the game composed of mind, spirit, and muscle, fencing demands intense concentration, strength, and quickness of both mind and body. In tournament fencing a team must compete in three weapons—the foil, the epee, and the sabre. Each has its own set of rules.

Under the expert coaching of Henry E. Wahl, Indiana Tech has competed with schools such as Indiana University, Notre Dame, University of Chicago, and the University of Detroit.

Soccer, perhaps the fastest growing sport at Indiana Tech, demands a great amount of team work and skill. Coach Robert Leffers expert guidance has developed the teamwork, brought out the skill, and has successfully molded Indiana Tech into a strong contender in intercollegiate soccer. The past season saw Tech compile a won and 3 lost record against outstanding competition which included the University of Chicago and Michigan State University. The future season will see Tech go into even stiffer competition as Purdue and Indiana University have been added to the schedule.

Golf

Under the Tutelage of Benjamin Dow, the Tech golf team wound up the season with an impressive 6-2 record and placed 8th out of 19 teams in the Indiana Collegiate Conference Tourney.

In the Mid-Central Conference Tournament, Tech not only placed second, but senior Joe Boone gained recognition by capturing Medalist honors for lowest score in the tourney.

Three returning members of last year's Varsity Tennis Team were the nucleus for the 1959 tennis squad, which wound up the season with a 2 won- 5 lost record.

Rollie Pipes was the key man in getting the team well organized. A fine newcomer to the team was Kelly Heffner, who played in the Number 1 Position during the latter part of the season. Art Firtion and Jack Updegraff were also newcomers to the team, and we should hear much from these men during the next Varsity Tennis Competition.

Much rebuilding of the team will have to be done with the graduation of Rollie Pipes, Olwen Legall, and Sarkis Garibian.
